Education

Bachelor of Technology in Computer Engineering	June 2026
Dwarkadas J. Sanghvi College of Engineering	*GPA: 9.21/ 10.00*
Higher Secondary School Certificate(HSC)	June 2022
Samta College	*Percentage:84.5*
Secondary School Certificate(SSC)	July 2020
Poorna Prajna High School	*Percentage:95.20*

Experience

Oggntech   July 2024 – September 2024
Full-Stack Web Developer   *Mumbai, Maharashtra*

- Developed and deployed responsive full-stack web applications using **Figma** for UI/UX design and the **MERN stack**, ensuring seamless integration and user-friendly interfaces.
- Optimized **MySQL** queries and collaborated with cross-functional teams to integrate **APIs**, enhance frontend design, and improve overall application performance.

Projects

SummarHire | *React.js, Flask, Selenium, TailwindCSS, DeepSeek AI*

- Built a full-stack job scraper that extracts listings from Zepto using **Flask** and **Selenium**, summarizes job descriptions via **DeepSeek AI**, and renders them as interactive cards in a responsive **React.js + TailwindCSS** frontend.

SmartMail | *Java, Spring Boot, React.js, Large Language Model*

- Built an AI-powered email writer using **Java Full Stack** and **LLMs** to analyze tone and generate context-aware responses.
- Implemented **prompt engineering** and **REST APIs** to automate communication, ensuring faster and consistent replies.

Noteng | *React.js, Tailwind CSS*

- Developed the frontend using **React.js** and **Tailwind CSS** for Noteng, creating reusable, responsive, and accessible UI components to help college students access notes, videos, and competition resources with optimized performance.

Technical Skills

Languages: C, Java, Javascript, Python, CSS, HTML, SQL
Frameworks:React.js, TailwindCSS, Express.js, Node.js, Numpy, Pandas, TensorFlow, Next.js, Keras, Scikit-Learn, Seaborn, Matplotlib, NLTK, PyTorch, Streamlit, Flask,Spring Boot
Databases:MySql, MongoDB

Co-Curriculars

DJ Unicode   Sept 2023 – July 2024
Frontend Web Developer Mentee   *Mumbai, Maharashtra*

- Built frontend projects with React.js and Tailwind CSS, improving UI performance.
- Collaborated on responsive web apps, optimizing development best practices.

Achievements

Winner – Women Who Code Full-Stack DXP Hackathon (2025)   March 2025
Winner   *Mumbai,Maharashtra*

- Won **1st prize** out of 360+ participants for building *"MentorHer"*, an AI-powered mentorship platform for women in tech using Next.js, Flask, MongoDB, and Gemini LLMs.
